Gopi Kommavarapu

React Web Developer, Tata Consultancy Services

Summary

Experienced React Developer with a strong background in building dynamic, responsive web applications using React.js, JavaScript (ES6), Tailwind CSS, and Bootstrap. Proficient in component-based architecture, state management (Redux, Context API), and mobile-first design. Skilled in performance optimization, RESTful API integration, and Agile development methodologies. Passionate about delivering scalable, high-performance solutions and continuously enhancing skills in fast-paced, collaborative environments.

Experience

Tata Consultancy Services Limited – React Web Developer

Hyderabad, IN

Feb-2022 - Current

- Developed and styled interactive web pages using HTML, HTML5, CSS, and CSS3 to ensure a responsive and visually appealing user experience.
- Developed responsive, mobile-first web interfaces using Tailwind CSS and Bootstrap, ensuring cross-browser compatibility and an optimal user experience.
- Implemented dynamic functionalities using JavaScript (ES6) and TypeScript, ensuring clean, modular, and efficient code.
- Worked with JSX and JSON to handle structured data and enhance React-based applications.
- Managed global state efficiently with Redux and Context API, improving application performance and maintainability.
- Fetched and managed data from RESTful APIs using Fetch API and Axios for seamless backend communication.
- Implemented authentication and authorization mechanisms using JWT (JSON Web Tokens) for secure user access.
- Used Git and GitHub for version control, enabling smooth collaboration and code management.
- Managed dependencies and scripts using NPM and Yarn, ensuring a structured development workflow.
- Optimized application performance by implementing Lazy Loading, Code Splitting (React Suspense), and efficient asset management.
- Gained hands-on experience with Node.js and Express.js, handling API requests and server-side logic.
- Gained basic hands-on experience with MongoDB and Mongoose for storing, retrieving, and managing structured and unstructured data.
- Collaborated with the UX team to translate designs into responsive and user-friendly web interfaces, ensuring a seamless user experience.
- Debugged applications using browser dev tools for cross-browser compatibility.
- Worked in an Agile development environment, actively participating in scrum meetings, sprint planning, and code reviews to ensure timely feature delivery.
